17W-054

Attention: Business Development Managers & Mortgage Brokers

June 26, 2017

Please take a moment to read the important information contained in this bulletin.

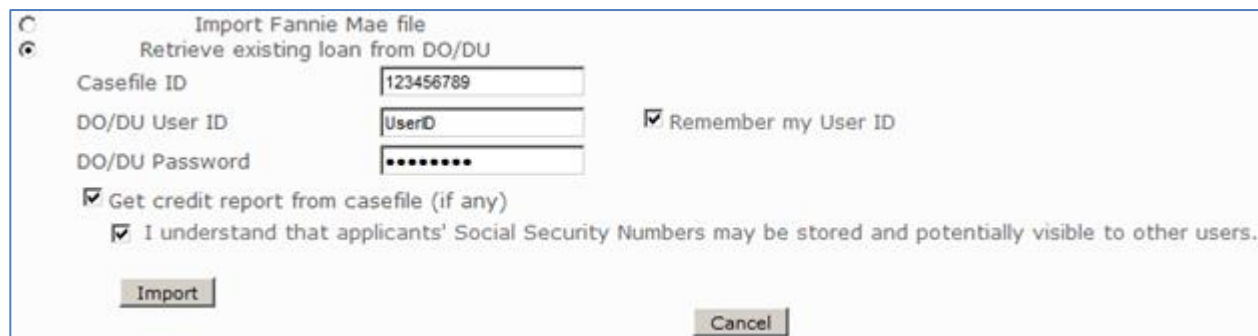

Included in this Bulletin: [Creating a New Loan from DU Findings](#)

Creating a new loan in BOLT can be done by importing either a FNMA 3.2 file or DU findings. For Originators who run DU prior to submitting a loan to Mountain West Financial, the best way to create a new loan is to import the DU findings.

Importing DU in place of a FNMA 3.2 provides a few benefits:

- The Credit Report does not need to be reissued through the pricing engine
- DU findings are automatically released to Mountain West Financial
- Loan information in BOLT will match DU

To create a new loan from DU findings, select Retrieve existing loan from DO/DU in the Import loan file screen, and then enter the Casefile ID and your DU User ID and Password.

Import Fannie Mae file

☒ Retrieve existing loan from DO/DU

Casefile ID:

DO/DU User ID: ☒ Remember my User ID

DO/DU Password:

☒ Get credit report from casefile (if any)

☒ I understand that applicants' Social Security Numbers may be stored and potentially visible to other users.

Further instruction for submitting a loan and utilizing BOLT's other features can be found in the [BOLT User Guide](#).
